YUVRAJ
OVERSEAS PVT. LTD.

ABOUT US

At Yuvraj Overseas Pvt Ltd, we take immense pride in being the industry's leading manufacturer of high-quality hydraulic hose-end fittings, adaptors, and customized cold-forged fittings. With a commitment to excellence, we specialize in producing a wide range of fittings, ranging from 1/8" ID to 4" in carbon steel.

As a testament to our dedication to quality, we are proud to be an IATF 16949:2016 and ISO9001:2015 certified company. What sets us apart is our complete in-house manufacturing process. From the initial processing of raw materials to the dispatch of finished goods, every step si carefully managed under our roof.

Our state-of-the-art facilities include an in-house cold-forging facility, annealing, precision CNC turning, bending, crimping, and zinc coating lines with zinc-nickel currently under testing to cater to the demand from our export customers. We leave no stone unturned in ensuring that our products meet the highest standards of durability and performance.

Furthermore, our fully equipped testing laboratory, featuring cutting-edge equipment from renowned brands like Mitutoyo, enables us to guarantee the quality of our products. From profile projectors to salt spray test chambers, we rigorously test our fittings to ensure they meet and exceed industry standards.

We are eager to demonstrate the exceptional quality of our products and how they can benefit your business.

Thank you for considering us as your trusted partner in Hydraulic solutions..

VISION & MISSION

Mission : Our mission is to empower industries worldwide with tailored precision and innovation, fostering efficient and sustainable operations.

Vision : Envisioning a connected world, we aspire to lead as a dynamic force in the hose-end fittings and customized solutions market. By synergizing our engineering excellence with adaptability, we are committed to enhancing industries while exemplifying ingenuity, quality and environmental stewardship.

Why Us?

- Over 30 years of technical expertise in the industry
- In-house testing and R&D facility
- Customized solutions as per drawing or application
- In-house cold-forging plant
- Lower lead times with excess capacity
- In-house electroplating plant, with various options such as zinc and zinc/nickel
- Standard box packaging for all our products
- Barcode integration
- 100% Quality control with new parameters being added from time-to-time
- Direct & Indirect suppliers for various global OEMs and Tier 1 customers
- Faster responses and RFQs answered by our dedicated sales team
- Ability to work with low MOQs

INFRASTRUCTURE

Manufacturing Plant Spread Across 60000 Sq Ft

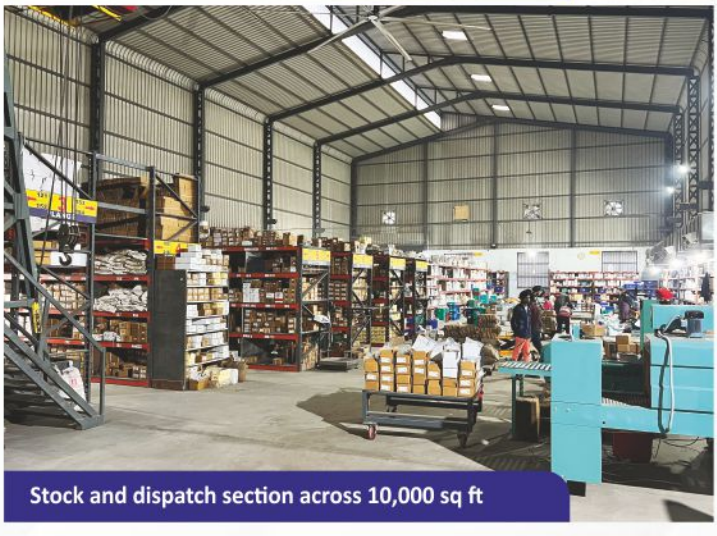

Raw material incoming and processing

In-House Cold-Forging Plant

CNC Machining Section

Stock and dispatch section across 10,000 sq ft

QUALITY CONTROL

YUVRAJ OVERSEAS PVT. LTD.

Incoming Inspection:

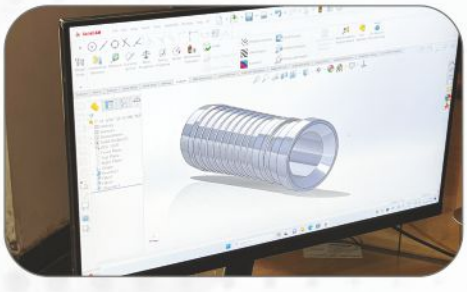

- All raw material is received with test certificates of the specified grades, and material is physically inspected to check for any defects.
- Raw material is randomly tested in interval to check the composition and confirm it with the received test certificate.
- Further inspection to verify the material is crack-free

In-process inspection:

- Raw material cuttings are randomly checked by quality inspector to verify the cut length
- Cold-forgings are inspected regularly and tested for dimensional accuracy and hardness parameters
- Rigorous inspection takes place in the CNC machining section, with set-up approvals, line-inspections to find any rejections.
- Appropriate gauges are provided at all work stations. All thread parts and bores are 100% gauge inspected.
- Electroplated parts are regularly checked for coating thickness.
- Parts are randomly cut and inspected on profile projectors to verify the angles and dimensions are as per drawings.
- Bending parts are first approved after die changes with angle measurement and drop length verification

Final/Pre-dispatch inspection & Testing:

- Before dispatch, all material is visually and dimensionally checked by our quality inspectors Pre-Dispatch Inspection (PDI) reports are made on request.
- Thread gauges (Ring & Plug) are used to inspect thread parts like nuts, males, adaptors, etc.
- All of our fitting are then packed in boxes in plastic bags and silica gel to prevent corrosion.

Solidworks 2d/3d Software for Product Designing

Profile Projector To Accurately Check Dimensions

Height/Angle Gauges for Quality Control

YUVRAJ OVERSEAS PVT. LTD.

INFRASTRUCTURE CAPABILITIES

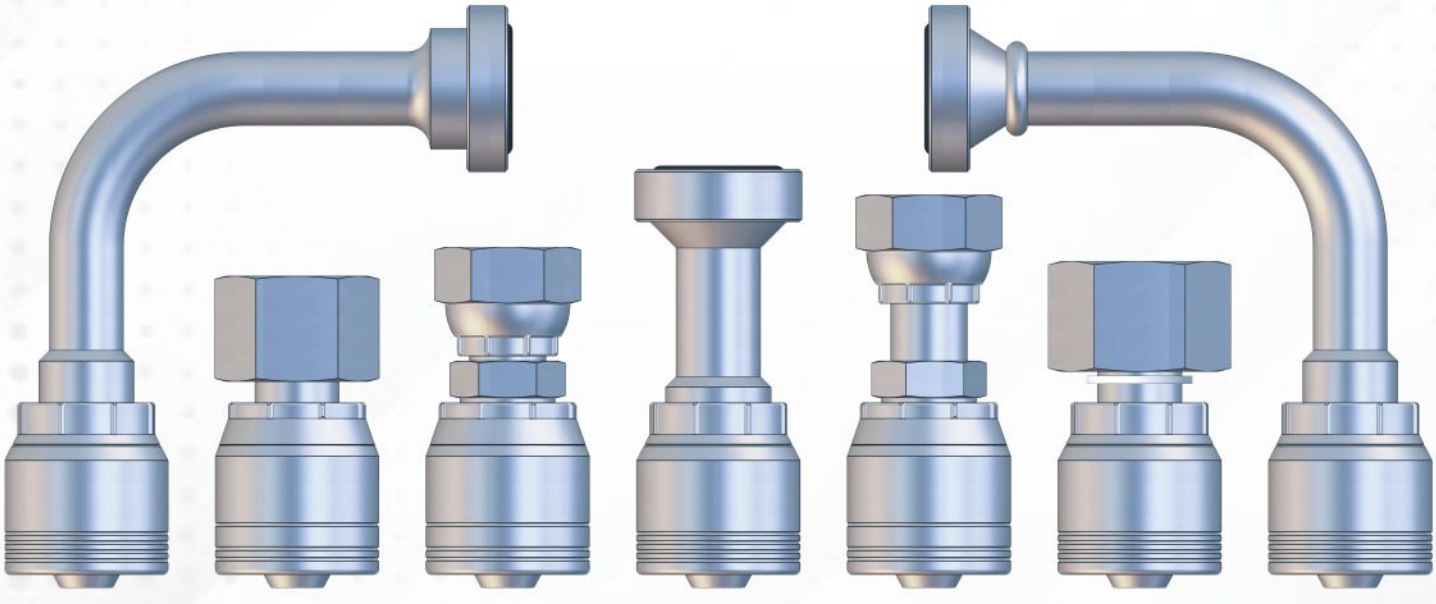

MANUFACTURING PLANT

Equipment Name	Qty.
Circular Saw Cutting Machines	4 nos
Electric Oven For Cold Forging	2
Cold Forging Knuckle-Joint Press	400 Ton-2, 600 Ton-1, 800 Ton Extrusion Press-1, 1000 Ton-1
Shot-blasting Machine	1
Hydraulic Press	4
Annealing Machine	1
CNC Turning Centres	50
Drilling Machines	10
Automatic Machines	24
Induction Heating Machine	1
Pipe-bending Machines	5
Nut-crimping Machines	5
Electroplating Plant With Barrels And Tanks	5 Ton Daily Capacity
Pneumatic Roll-marking Machine	1
Laser Engraving Machine	1

LAB AND R&D EQUIPMENT

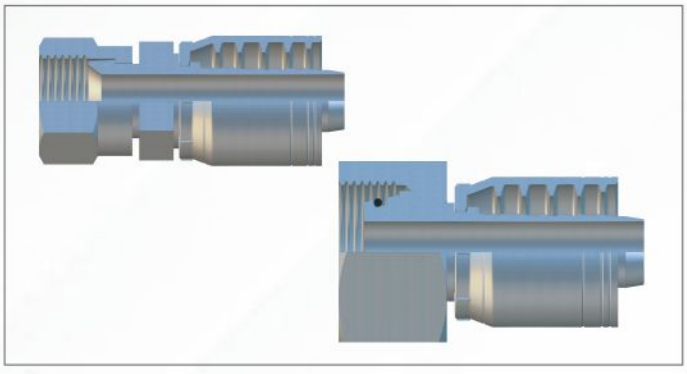

Equipment Name
SolidWorks CAD/CAM 2D/3D Software
Profile Projector
Salt Spray Testing Apparatus – NSS as per ASTM B117
Height Gauge
Rockwell Hardness Tester
Digital Angle Gauge
Digital Depth Gauge
Digital Vernier Callipers
Micrometres
All Size Thread and Plug Gauges for Every Thread Part Being Machined
Slip Gauges for Calibration
Bore Gauges
Coating Thickness Gauge
OP Hose Crimping Machine for Crimp OD testing
Internal Gauges made for Poka-Yoke.
3000 Bar Test Bench

A COMPREHENSIVE MANUFACTURER OFFERING AN EXTENSIVE ARRAY OF PRODUCTS FOR THE FLUID POWER INDUSTRY.

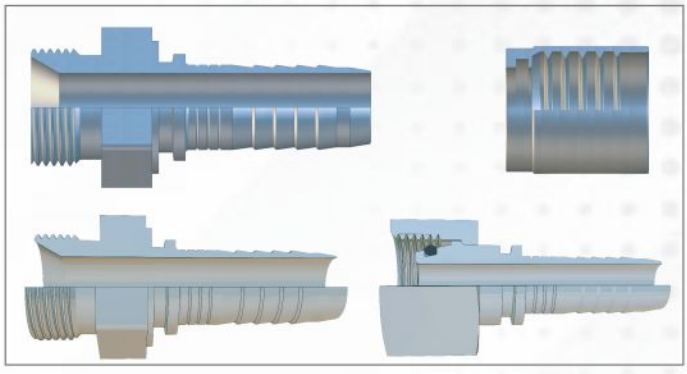

PRODUCTS WE MANUFACTURE

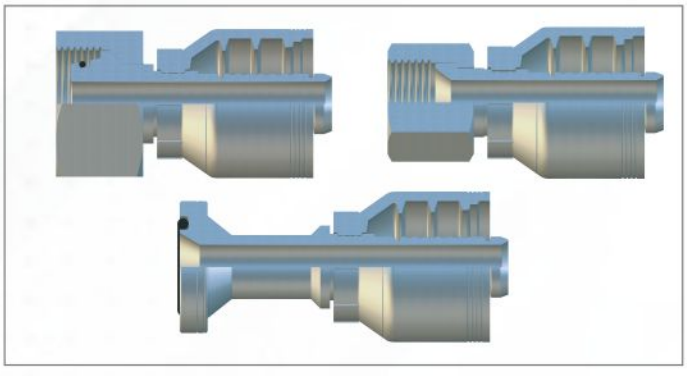

YUVRAJ OVERSEAS PVT. LTD.

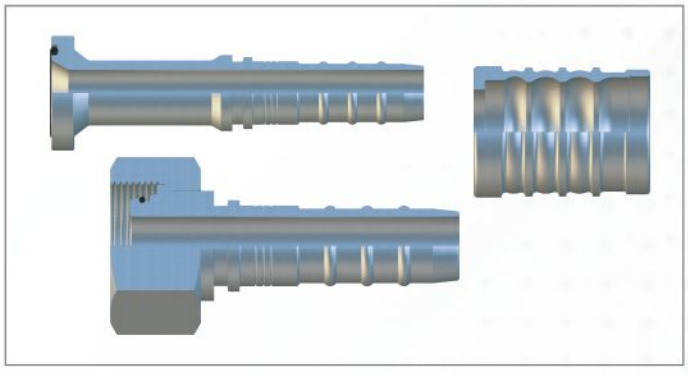

WIRE-BRAID SINGLE-PC FITTINGS

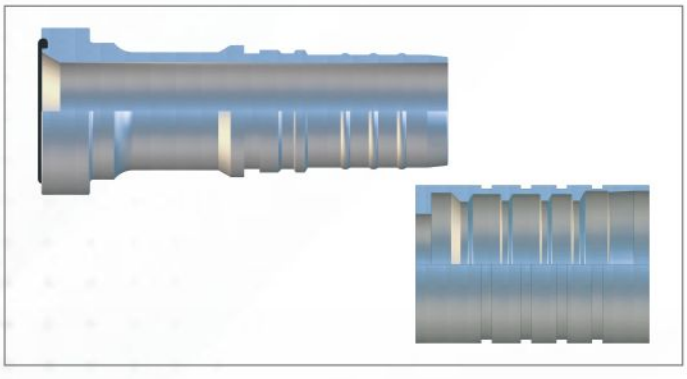

WIRE- BRAID TWO-PC FITTINGS

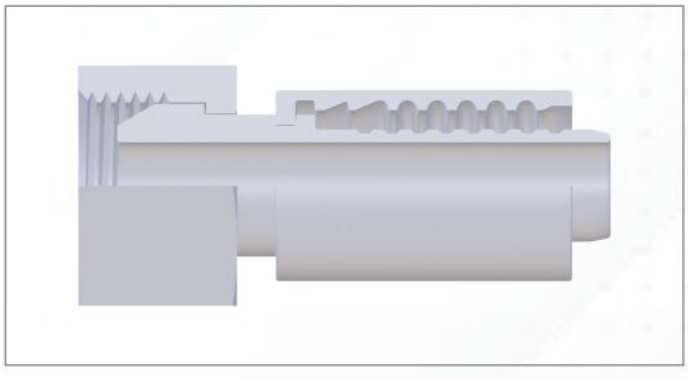

MULTISPIRAL SINGLE-PC FITTINGS

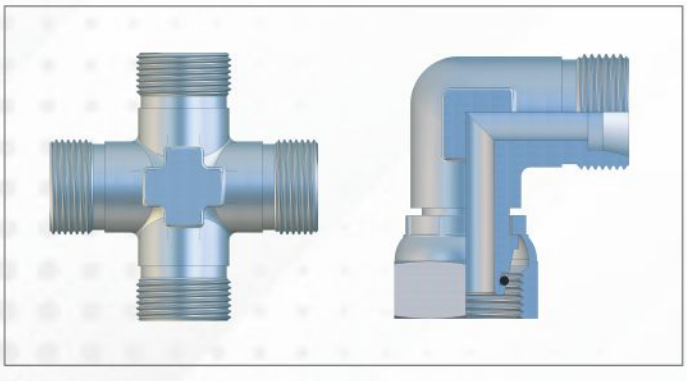

MULTISPIRAL TWO-PC FITTINGS

INTERLOCK FITTINGS

THERMOPLASTIC FITTINGS

HYDRAULIC FITTINGS & ADAPTERS

COLD FORGED BLANKS

SECTORS WE COVER:

Our fitting are being used in different sectors and various on-highway and off-highway OEMs. Some of the sectors that we cover are:

- Automotive
- Agriculture
- Construction Equipment
- Industrial Machineries
- Oil & Gas
- Railway
- General Industry
- Concrete Plants & Trucks
